

THE CHINOOK ADVANCE

Vol. 22

Chinook, Alberta, Thursday, March 23rd 1944

LOST

LOST—A purse containing a large sum of money. Any one finding same please leave at this office and receive reward.

Mr. Nick Schmidt Jr. returned last week from Winnipeg, where he visited with relatives.

Mrs. Dr. Patton and Mrs. D. Smith of Cereal were Chinook last Saturday.

Mrs. R. V. Lawrence and Mrs. W. Zawasky left last week for Vancouver and other places where they will visit with friends.

R. C. A. Butts Mack is spending a short leave with his parents.

Mrs. W. Wilson took very suddenly ill a week ago and has been under the care of Dr. Patton of Cereal, until Friday, when she returned feeling quite herself again.

Mrs. R. Morrison who has been visiting in Calgary, returned Tuesday morning.

Pilot Officer Charvyk made a two days' visit in Chinook which was much appreciated by his many friends.

Mrs. J. Jarboe, teacher from Lenfene, visited Mrs. Sutherland Wednesday evening.

Miss Alice H. Gilbertson of MacLeod, who spent two weeks' vacation with her parents, returned Saturday.

LOCAL NEWS

Born—To Mr. and Mrs. J. Rosenau in the Esler Hospital on March 7th, a daughter.

Born—To Mr. and Mrs. H. Cornell on Tuesday, March 21st a daughter.

YOUNGSTOWN

The ladies and high school girls held their Physical Training class in the W. I. hall last Thursday night. Every one had an enjoyable time with exercises and games.

Youngstown extends a welcome to Mr. and Mrs. Robertson and family who have taken up residence here.

Mr. Charles Rosenau Jr. has been spending a few days with his sister Edna at Rockyford.

Rev. Percy R. Rainey will conduct a week of special meetings at the church of the Nazarene, beginning Tuesday, 21st, and continuing every night during the week including Saturday.

A pleasant evening was spent in honor of Wallace Armstrong at Crocus Plains School last Friday.

We wish to congratulate Mrs. L. Miller who returned Friday with her little son Keith.

Robert Blair R. C. A. F. returned to his post last Tuesday.

Director
Line Elevators Farm Service
'Bugs' in the Grain Bins

Seven or eight years ago, a distinguished authority on insects stated that, in Western Canada, we need never worry about insect damage in our stored grain. Most authorities are occasionally wrong, and he was no exception.

It is not our purpose to spread false alarm, but merely to draw attention to the defensive measures at our disposal. In guarding against losses due to insects in farm stored grain, we have three powerful allies. They are: a cold climate, a dry climate and a very efficient Division of Entomology in the Dominion Department of Agriculture. Despite these advantages losses have been suffered and will continue unless the necessary precautions are observed.

The best prevention against loss is storing only dry grain, and keeping it dry by means of ventilated granaries which exclude rain and snow and which are constructed so as to provide an air space between the floor and the ground. As added insurance, it is wise to bin grain during cold weather or move it and, if possible clean it, during very cold weather.

If storing tough grain is unavoidable, it should be examined regularly and, at the first sign of heating or infestation by mites or insects, it should be run through a fanning mill, threshing machine or combine.

All Line Elevator agents have copies of a Dominion Government leaflet on this subject and, also, the "Seedtime and Harvest" leaflet which gives more detail than space allows here.

TIME BOMBS

Where there's morale there is never a last straw.

When homes are in tune it's a lot easier to face the music.

There's enough for our need, but not for our greed. If we care and we share, the whole nation will feed.

Misery loves company - but doesn't get it.

RATION BOOK 4 —WHEN AND WHERE YOU GET IT

Distributing Centres will not be open on all days of next week. Make sure that you know exactly what days and hours the Distributing Centre you intend to go to will be open. Help the volunteer workers by following instructions carefully.

RATION BOOKS WILL NOT BE MAILED OR DELIVERED — THEY MUST BE CALLED FOR.

HERE IS WHAT YOU DO TO GET YOUR NEW BOOK

1. Fill in the application card—the first post-card in your Ration Book 3. Do this at home. The application card is printed in red and is numbered RB-99. DO NOT USE ANY OTHER CARD. Follow the method shown.
2. Be sure to PRINT clearly, accurately and completely all information required on the card. BECAUSE THERE ARE NO COUNTIES IN WESTERN CANADA, IN LINE 3 STATE THE MUNICIPALITY (URBAN OR RURAL IN WHICH YOU ACTUALLY RESIDE, REGARDLESS OF YOUR POSTAL ADDRESS.
3. Sign at the bottom with your usual signature. Persons of 16 years or over must sign their own cards. Cards of persons under 16 years must be signed by parents or guardians.
4. Applicants must bring their Ration Books with them to the Distributing Centre. Children under 16 may not apply for Ration Books for themselves or for other members of the family.
5. Do not detach application card from your Ration Book. This must be done by an official at the Distributing Centre. If accidentally detached, bring the application card along with your Ration Book.
6. ARMED FORCES: All members of the Armed Forces, whether on permanent subsistence or not, will obtain their Ration Cards from their own Units.

RB-99 PRINT IN BLOCK LETTERS IN INK. (Ecrivez à l'encre en lettres bloquées)

GARDEN NOTES

To Relieve Strain

This year with the war in a critical phase, gardens and gardening are needed more than ever. Not only are they needed for providing essential food, but also as a useful and pleasant recreation open to every citizen of the Dominion. In the spring one turns naturally to gardening. Digging in the soil, sowing seeds and watching plants develop provides a welcome and needed change when tension was never greater, and when many of our normal recreations may be no longer possible.

Hardy and Otherwise

Roughly, vegetables and flowers naturally divide themselves into three degrees of hardiness. In vegetables one can hardly plant such things as peas too early, because they are a cool weather crop and must make their growth before the days become too hot. Also in the hardy line are spinach, lettuce, radish, beets, carrots and parsnips, swig chard, etc. Under semi-hardy there will be beans, potatoes, corn, cabbage, etc. A very slight frost will not kill some of these but it will certainly set them back. As a matter of fact, with a few exceptions, there is little gained in planting these while there is still danger of serious frost and the soil is cold. And, of course, with warm weather things like melons, squash, tomatoes and cucumbers, one is risking certain disaster by planting before danger from frost has passed.

Flower Families

In flowers, certain things that would normally beget themselves and come up unasked every spring can be sown just as soon as possible. This would cover such very hardy things as alyssum, hollyhocks, marigolds, etc. Sweet peas also should be put in this category, although they will not stand the winter except in some of the very mildest parts of Canada. At the other end of the line will be the very tender plants like dahlias, gladioli and cannas. These will not stand frost. Any good Canadian seed catalogue, of course, will advise in detail on these points.

OUR COMPLETE SHORT STORY—

"The Blast-Out"

— By —
LESLIE B. LUECK

McClure Newspaper Syndicate

Sheriff Matt Scott and his deputy, Pete Connelly, lounging in front of the county jail, weren't especially enjoying the shade. "I still say I'm right to lock up every bum that drifts through Keysport!" the sheriff growled boisterously.

"You're a hard man," insisted the deputy. "Everybody says so. You even bully your daughter."

"Leave Diana out of this!" Scott roared. He rose from the bench and went inside. Pete could hear his heavy steps halting in front of the kid's cell. Scott addressed the prisoner: "Are you willing to talk, Hale?" There was dead silence from the cell.

Pete almost jumped at the soft rustle of skirts beside him. Diana Scott bent her bright blond head close to Pete's ear and whispered, "I didn't dare tell Dad, but Terry Hale and I met while we were at State University. Terry was on his way to a city where he has a job waiting for him."

She stopped the question with a warning look. "You see," she gasped, "we're engaged! We were going to run away—elope!"

Pete whooped under his breath. "Hallelujah! Say I was beginning to think you were going to let your dad railroad you into marrying that oaf, George Ott."

Diana cringed enchantingly. Her violet eyes were staring. "Dad's all right—but this is love. Pete, wish us luck."

Some of her exhilaration died when she stepped into the jail. She had to help get Terry out, somehow! Aloud she coaxed softly, "Oh, why don't you let him go, Dad? He's done nothing wrong."

The prisoner, bronzed arms bulging through a torn shirt, gazed at her heartily. Diana's heart skipped long beats. But Hale's voice was cool: "I guess the sheriff won't let me go until I tell him my home town so he can check up on me."

Diana tried to control her excitement. "That should be simple."

"I can't tell," muttered the prisoner. Sheriff Scott sneered, "You probably broke the law there. I've sent your finger prints and description to the local F.B.I. office." He wheeled on Diana. "Come along; we're going home."

But as her father stamped down the corridor, Diana managed to thrust a note through the bars and received one in exchange. . . .

Sheriff Scott watched his daughter closely as she moved about the kitchen preparing their evening meal. "Diana," he ordered brusquely, "I forbid you to come around to the jail again. I don't like to have you speak to a common bum."

She dropped a frying pan. "But he's not a bum!" Scott ignored that. Diana's knuckles whitened at a clumsy step on the porch. Every night for the past month that hated footstep had come at exactly seven. And every night she had to endure the same fantastic ritual that was about to take place.

"Come in, George!" bellowed Sheriff Scott heartily, as the door opened. "Diana's just settin' supper."

George was thick-set, ape-like. Dutifully Diana submitted to his kisses, quickly turning one satin-smooth cheek. George always stayed for the evening meal. He made strange noises swallowing food; black eyes never leaving her. Afterwards, Connelly, who boarded with the Scotts, went into the living room from his pipe and found Diana waiting, finger on lips, a note in her hand. "Don't open it until morning," she whispered. Then she and George went off to the movies.

"Matt," glowered Connelly, "George is too old for Diana. He's thirty. She goes around with him because you order her to."

The sheriff nodded. "George owns a fine farm. She'll have everything she wants. Her mother made me promise to see that she got a good man."

Connelly grinned. It was nearly ten o'clock. "Diana ought to be getting home soon," the sheriff said. He stretched. "Say, Pete, that tramp asked for a deck of cards today. He's probably a gambler."

Next morning, Sheriff Scott tore into Connelly's room, wild-eyed. He shook Connelly awake. "Diana hasn't been home all night! He shouted. "I phoned George. He says he brought her home at nine o'clock. He gripped

VATRO-NOL

Connelly's arm. "She's run off with that tramp. Pete, you let him out! You—"

"Hold on," said Connelly. "I ain't been out of my room. You got the keys to the kids cell. They're locked in your office safe. Even I don't know the combination."

"We're going to the jail," Scott said grimly.

Together they climbed in the sheriff's car, sped across town. At the jail Scott's worst fears were realized. The prisoner's cell door was wide open. His lock was shattered. "My gosh!" breathed Connelly. "It was blasted off. Look—he used blankets to muffle the explosion!" Something crackled in his shirt pocket and he remembered Diana's note. "She told me not to open this until now," Connelly muttered guiltily.

"Read it, man!" Scott yelled. "Dear Dad and Pete: (Connelly read tremblingly)

"Terry and I are on the midnight train. He couldn't reveal his home town because his father wanted Terry to work in his factory. But Terry wants to make his own way. He's going to fill the deck of cards and some carbon from a pencil. When he sets it afire the lock will break. After we're married, we'll send a check for the damage. And we'll visit you and Peter. Love, "Diana."

"P.S. Terry is a research chemist."

Pioneer In Plastics

Thirty-Five Years Ago Bakelite Brought Honor To Inventor

A generation has grown up to look on bakelite with no more curiosity than their forefathers looked on glass, yet this product, among the earliest of cost-of-car chemical plastics was sufficiently remarkable 35 years ago to bring honor to its inventor. In fact, it did more for Dr. Leo H. Baekeland, whose name is less familiar to the youngsters of today than are some of his inventions, was able to advance from the production of bakelite to the development of other valuable materials fashioned synthetically from chemicals and used in peace and war in combination with wood and countless other natural substances and manufactured products to make stronger, lighter airplanes, household goods and electrical instruments. The scholarship which originally brought Dr. Baekeland to America from Belgium at 26 has had unusual consequences, the importance of which cannot be measured by the numerous honors that came to the chemist in his long and useful lifetime in America—New York Sun.

PULPIT ON RAILS

In St. Cuthbert's Church at Carleton Place, Ontario, is a pulpit on rails; three rails let into the floor are the means of guiding the huge pulpit into the centre of the church, according to a letter to the editor of the London Field, who sent a photograph of it.

Mechanical clocks were invented in 966 by Pope Sylvester II, but did not come into common use in Europe until four centuries later.

Stop Dosing Constipation

There is a Better Way to Correct a Common Cause

Yes, you can free yourself from slavery to "dosing"—with its gripping unpleasantness, its lack of lasting relief if your trouble is due to insufficient "bulk" in your diet! Do as thousands of others have done! Try the gentle-acting, ALL-BRAND way! KOLLOID ALL-BRAND really "gets at" this common cause of constipation by supplying the missing "bulk-producing" material needed for easy, natural elimination. Try eating a daily serving of ALL-BRAND, or several ALL-BRAND muffins. Drink plenty of water. Get ALL-BRAND at your grocer's. 2 convenient sizes. Made by Kellogg's in London, Canada.

Grateful To Canada

People In Britain Appreciate Food-stuffs That Have Been Sent

The women of Britain with whom Miss Mary-Etta MacPherson, managing editor of *Chatelaine*, came in contact during a two-month visit to the British Isles are keenly interested in all things Canadian, she told the Advertising and Sales Executives' Club of Montreal. They are very grateful for the foodstuffs that Canada has been sending over to help them maintain a standard of living that enabled them to do their full part in the war. That they were doing this there was no doubt—women were doing the hardest kinds of jobs with grim determination, and Miss MacPherson said it was a wonderful privilege to have the opportunity of meeting them and seeing for herself the things of which she had heard.

"There is no war weariness in Britain," she declared, "but there is a tremendously sturdy fighting spirit in the civilians as well as in the services, an indomitable ability about the ordinary people in Britain, who are willing to do anything as long as they think there is fair play."

Miss MacPherson spoke about the humor of the British women workers, which persisted despite the blackout and the curtailment of social life, and then described the high place Canadians have in their esteem.

"Any Canadian about here can feel intensely proud about being a Canadian," she remarked. The speaker mentioned that the British people were particularly grateful to Canada for sending over tinned salmon, and they were greatly interested in the fact that young women could get university education on the same footing as men in Canada.

Miss MacPherson contrasted the life of the British working classes with those of this country, remarking that no provision had been made for garages in 50,000 new houses that had been built. People over there were surprised, she said, that in Canada many workers of this class would have family cars. She told her audience of some of the ingenious devices in English homes for utilizing the heat from the living room fireplaces, hot water being piped through to the boiler in the kitchen, and even to the kitchen ovens for baking—Montreal Star.

Today's Pattern

By ANNE ADAMS

Have ever all set for sunnier spring days with this sleek and cape-cut, Pattern 4632. The frock is a dainty princess style that can be whipped up in no time. The cape has a faintly swing you'll adore. Make it up in a gay spring wool or rayon fabric.

Pattern 4632 comes in children's sizes 4 to 12. Size 6, frock, takes 1½ yds. 35-inch; cape, 1½ yds. 54-inch, and 2 yds. 35-inch.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 173 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

Aircraft of the coast command have flown more than 80,000,000 miles. More than 25,000,000 miles were flown in 1942, mostly on anti-submarine raids.

UNUSUAL SUPPER TREAT The Whole Family will Enjoy

PREMIUM LIVER PATTIES

1 pound liver 1 cup fine Christie's 2 tablespoons chopped celery leaves
1 cup water Premium Soda 2 tablespoons chopped green pepper
2 small onions 1 egg, beaten 1 tablespoon lemon juice
½ cup liver 1 teaspoon salt
stock ½ teaspoon pepper

Place liver in water in shallow pan. Cover and simmer for five minutes over low flame. Drain water and reserve ¼ cup liver with stock. Grind liver and onions. Pour stock over Christie's Premium Soda Crackers crumbs and add to ground liver with stock. Mix well. Shape into 8 patties and brown in hot fat. The flaky goodness of Christie's Premium Soda Crackers brings out the full flavor of other foods. Adds extra relish to salads, soups, cheese or fruit spreads. Always keep a package or two on hand.

Grain Spoilage

Take Proper Methods To Protect Farm Stored Grain

In order to help Western farmers avoid losses in their farm-stored grain the Division of Entomology, Science Service, Dominion Department of Agriculture, has distributed a sheet of information on the subject. At the same time, a mimeographed circular has been sent to elevator operators, laboratories and other officials dealing with the storage of grain.

Most spoilage arises from tough grains, with its accompaniment of insects, mites, moths, and heating. Tough grain may result from unfavourable harvesting conditions. Leaks, seepage, green weed seeds, condensation, and lack of ventilation may cause dry sound grain to become tough in a few months. Tough grain favours the rapid growth and breeding of mites, insects, moths, and heating. These processes proceed even in the coldest weather because of the insulation provided by the grain. Transferring and cleaning grain in cold weather lowers the temperature of the grain, reduces pest activity, and prevents heating.

Farmers are advised to examine the grain now, turn it in cold weather to prevent warm weather losses, examine grain stocks every two weeks, transfer tough or infested grain in cold weather to a clean granary, provide adequate ventilation, market grain whenever possible, consult the elevator agent about over-delivery privileges and use them. These are some of the suggestions given in the sheet. Further information may be obtained from the local elevator agent, or write to the nearest Entomological Laboratory (at Brandon, Man.; Saskatoon, Sask.; and Lethbridge, Alta.) or to the Provincial Department of Agriculture concerned—at Winnipeg for Manitoba; Regina for Saskatchewan, or Edmonton for Alberta.

NEW NAZI BADGE

The Berlin rail in an apparent reference to operations against guerrillas in occupied countries said that Hitler has introduced a "gang-fighting badge" for German soldiers who have taken part in such struggles.

One can cross Australia from the Bright to the Ararua Sea, without coming to a fence.

A Man-Sized Job

Being Done On Northumberland Farm By Young English Girl

A 16-year-old English girl, Dulcie Scott, is running an 80-acre Northumberland farm that has a herd of 19 dairy cattle, seven calves, two horses, two pigs, and 50 chickens. Her assistant is a 19-year-old Land Army girl, who had lived in the city all her life. Here is Dulcie Scott's timetable: Up at 4:30 a.m., head bread, barns cleaned, cows fed and milked, milk delivered to cross-roads for pick-up, calves, pigs and poultry fed before breakfast at 9 a.m. After that, said Dulcie, "the day's work begins," which includes ploughing, cleaning, milking machines, taking animals and produce to market and other routine farm chores, repeating the morning's schedule at 3 p.m.

Discovers Home Skin Remedy

That skin ailments are known all over Canada as Moore's Emerald Oil is such a home remedy that it is called the "home remedy" for skin ailments. Moore's Emerald Oil is pleasant to use and it is so antiseptic and penetrating that many old stubborn cases of ringworm have yielded to its influence. Moore's Emerald Oil is sold by most drug stores everywhere to help rid you of stubborn pimples and unsightly skin troubles—satisfaction or money back.

Norsemen Plane

Appeared In The Movie "Captain Of The Clouds"

Dominion Skyways purchased the first Norseman plane in January, 1936, and it is still in operation. Built from CPA's Senneterre base, Canadians saw the plane in the movie "Captain of the Clouds". The star, James Cagney, flew it in the movies.

It was not long before almost every bush operator was flying or planning to fly a Norseman. As Noorduyn had hoped, they found it ideal for the tough, every-day beating it had to take.

It was the Bert Balchen incident that resulted in the Norseman getting the military use it deserved. The U.S. bought several of them and the pilots who flew Norsemen praised them mightily.

The Sahara Desert is large enough to blanket the United States.

PLAN OF THE PROPOSED OYEN OR CEREAL
MUNICIPAL HOSPITAL DISTRICT

In accordance with the provisions of the Municipal Hospitals Act, R.S.A., 1942, a request was received on November 13th, 1943, by the Minister of Health at Edmonton, asking that a Municipal Hospital District be established to include the territory described herein.

In compliance with this request the Minister of Health established the proposed Municipal Hospital District on the 19th day of November, 1943, appointed a Provisional Hospital Board consisting of five members and instructed it to meet on January 13th, 1944, to prepare a scheme or plan for the building and operating of a Municipal Hospital in the said district, in accordance with the provisions of the Act.

The Provisional Board met and prepared the plan outlined below in accordance with the Municipal Hospitals Act. The plan or scheme is to be advertised throughout the said district for a period of fourteen days following which, providing that all provisions of the Municipal Hospitals Act have been complied with, the plan will be submitted to the Minister for final approval and a date fixed, not exceeding thirty days from the date of such final approval, upon which the ratepayers of the said district will be called upon to vote for the adoption or rejection of the said scheme or plan.

The territory included in the Hospital District is as follows:

- All of Townships 27, 28, 29, 30 and 31 in Range 1, W. 4th M.
- All of Townships 27, 28, 29, 30 and 31 in Range 2, W. 4th M.
- All of Townships 27, 28, 29, 30 and 31 in Range 3, W. 4th M.
- All of Townships 24, 25, 26, 27, 28, 29, 30 and 31 in Range 4, W. 4th M.
- All of Townships 24, 25, 26, 27, 28, 29, 30 and 31 in Range 5, W. 4th M.
- All of Townships 24, 25, 26, 27, 28, 29, 30 and 31 in Range 6, W. 4th M.
- All of Townships 24, 25, 26, 27, 28, 29, 30 and 31 in Range 7, W. 4th M.
- All of Townships 24, 25, 26, 27, 28, 29 and 30 in Range 8, W. 4th M.
- The Village of Oyen; the Village of Cereal; The Village of Chinook.

The Hospital scheme or plan, submitted by the Provisional Board, upon which the ratepayers will be asked to vote is as follows:

- (1) It is agreed to vote on a location for the hospital building either at Cereal or Oyen, Alberta, and to acquire a suitable site in or adjacent to either of these villages. The said site to be subject to the approval of the Provincial Board of Health.
- (2) To build on the above site a twenty (20) bed hospital from plans

prepared by a registered architect and approved by the Provincial Board of Health.

(3) It is proposed (should the plebiscite carry) to negotiate with the Esler Hospital Board at Cereal to take over all its assets and liabilities. It is further proposed to refund in cash all persons holding contracts with the Esler Hospital Board, for the unexpired portion or term of such contract now in force.

(4) To provide for an Operating Room, a Case Room, and all essential furnishings and equipment as required in the regulations made under the provisions of the Hospitals Act.

(5) To supplement the revenue derived from taxation by the adoption of a schedule of fees as follows:

(a) To all ratepayers assessed in respect of property within the hospital district and their wives, dependent families and domestic female help of such ratepayers who are resident with them, a per diem rate of One Dollar (\$1.00).

(c) Non-Ratepayers in the hospital district may receive hospital treatment at the rate of One Dollar (\$1.00) per diem, upon payment of a yearly sum of Six Dollars (\$6.00) for single persons and the sum of Eight Dollars (\$8.00) per family providing this sum is paid within thirty days (30) of the opening of the hospital and thereafter not later than January 10th in each year except that persons entering the Hospital District must pay this sum within three (3) months after coming to the district. The Board retains the right to refuse to accept this payment if, in its opinion, it is made for the purpose of receiving immediate hospital treatment. In this paragraph the family shall mean the father, mother, and dependent children only.

(c) Providing the Board deems accommodation is available, every resident outside the boundaries of the Hospital District who pays the outside hospital supporter's fee of Ten Dollars (\$10.00) to the Secretary-Treasurer of the Hospital District on or before the 10th day of January in an year, shall be deemed to be a hospital supporter for the calendar year.

(d) No charge will be made for ordinary drugs and dressings for persons eligible for the per diem rate of \$1.00, but they will be required to pay for the use of the Operating Room and Case Room at the rates of:

Major Operations \$5.00
Minor Operations \$2.00

ALBERTA'S LIQUOR SITUATION

The Alberta Liquor Control Board is faced today with the cold mathematics of trying to supply more than double the number of permit holders with heavily curtailed liquor quotas. Greater demand rather than reduced supply is mainly responsible for the situation.

The Alberta Liquor Board purchased in 1912 base year, 212,611 gallons actual sales in 1912 215,111 gallons. From these figures it is seen that the amount purchased was in excess of sales by 57,000 gallons which went into stock. In 1943, the Alberta quota for liquor was 169,827 gallons (70 per cent of 1912 purchases). Of this

amount, only 157,000 gallons was received. Thus, the province received 12,818 gallons less than it was allowed under its quota.

The Sales for 1943 totalled 218,207 gallons. The difference between the amount received and the amount sold was made up out of stocks on hand.

ALBERTA LIQUOR CONTROL BOARD

JOHN A. KING,
Chairman.
